Dalkaab Construction & Consulting

2. Mission statement

Our mission is to address the needs of our clients through the employment of our expertise in the development of project planning and management, Architectural designing, logistics and construction work.

3. Vision statement

The vision statement of D.C.C.C is to be a leading regional construction, consulting and all engineering services company who will provide excellent services in a timely manner.

4. Company objectives

1. To construct new public facilities like Roads, Dams, Bridges, schools, hospitals, health centers, livestock Constructions, Irrigation & Water Constructions and rehabilitate the existing facilities.
2. To work toward alleviating water shortages for human and animal consumption by rehabilitating and constructing water sources (shallow wells, dams and boreholes).
3. To advocate and work toward the protection of the environment.
4. To Respect of laws and regulations.
5. To develop domestic infrastructures in the country.
6. To provide all Civil, Water, Geology consultation Services

5. Our People

Beyond bricks and rollers, people are the backbone of our business. We value relationships with the people we serve—our clients, contractors, suppliers and associates. Together we can enhance the quality of life for all. Since we believe that buildings are a reflection of the people who build them, we hire leaders of esteemed character who are fair, kind and considerate. By attracting and retaining the best construction professionals in our industry, we are able to maintain the highest standards and ethics. When you work with Dalkaab Company, you will experience positive attitudes, flexibility, transparency, timeliness, and quality workmanship

6. Our Employee Development

Give your employees the opportunity to develop and the freedom to make decisions, and they will succeed. Beyond technical, hands-on training, we train our staff to be equipped for work and life in the 21st century. By offering our employees knowledge, experience, knowhow and accomplishment, it is no surprise that job satisfaction and exceptional work follow.

In our context, Dalkaab as a company working in Somalia where the prolonged civil wars and the aftermath civil unrest that have driven the skilled workers to the foreign countries, Dalkaab is committed to revitalize the national workers through training workshops and on-the-job training.

Dalkaab Construction & Consulting

7. Our Project Partners

A wide community of professionals works together with us to deliver quality projects on time and within budget. With over 33 year of experience, we have established relationships with the majority of trade and specialty contractors, suppliers and firms. These include small, women-owned, minority and historically underutilized businesses. Our own Supplier Diversity Program sets the standard in the construction industry by actively mentoring these contractors on how to become certified and qualify for new opportunities.

8. Our Policies & Strategies

Safety & Environmental Policy.

It is the policy of DEL and its subsidiaries to conduct business in a socially responsible and ethical manner that seeks to protect the environment.

Our goal is to be a leader in environmental practices by emphasizing and encouraging Innovative and creative solutions, and continually improving our environmental construction performance.

Dalkaab Construction Company pledges to:

- Integrate environmental protection into every aspect of its business.
- Comply with all environmental regulations without regard to the degree of enforcement.
- Participate in the development of environmental legislation, regulation or policy issues that may significantly impact our business.
- Ensure adequate resources are available to comply with this policy.
- Conserve company and natural resources by careful management of emissions and discharges, and by minimizing waste generation.
- Require that all employees are held responsible for compliance with all policies, procedures, practice and laws applicable to their duties.

Anti-Bribery Policy

Delkaab Construction & Consulting Company is committed to conduct its business professionally with honesty and integrity at all times.

The company strictly prohibits acceptance of any illegal offer, gift or bribe from any party, Whether or not such gift or bribe is in money or in any other form.

Dalkaab Construction & Consulting

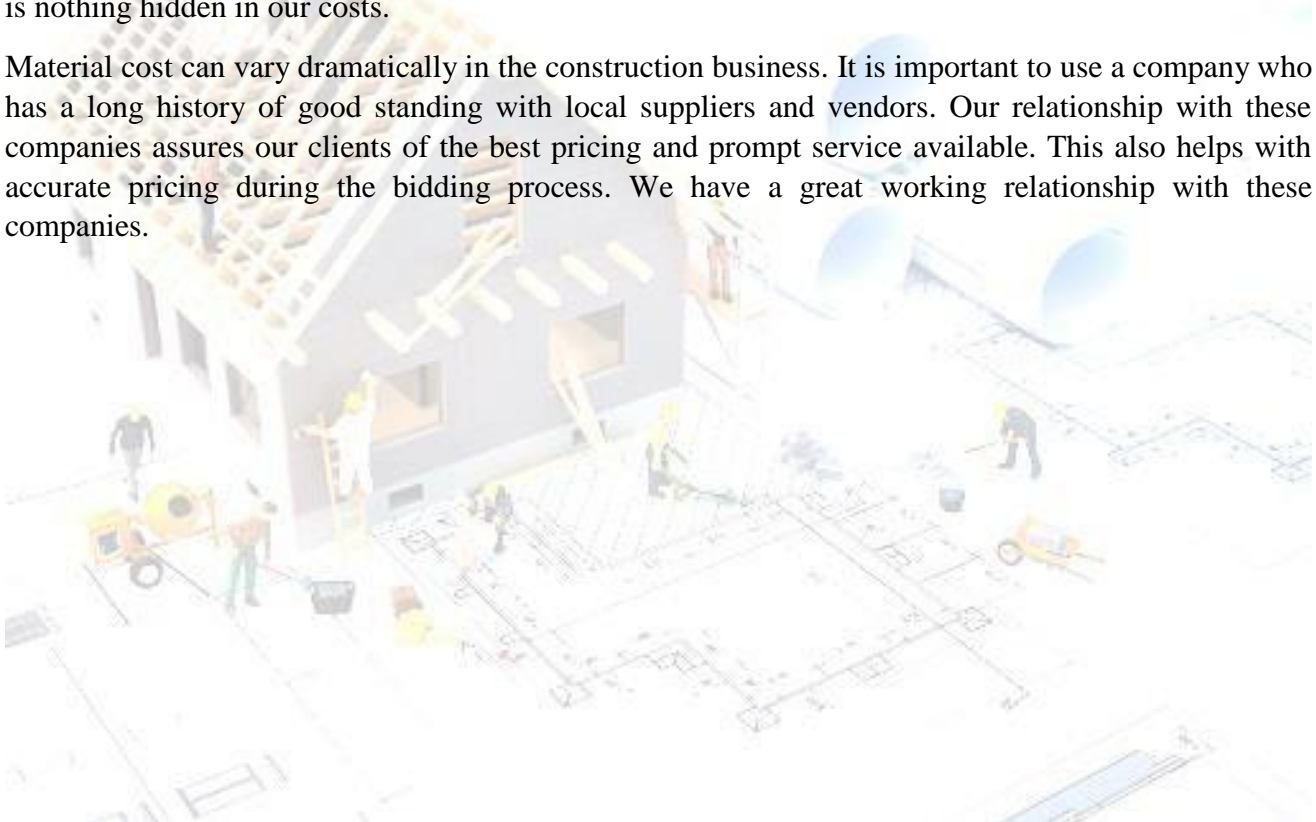

Employees are not permitted to receive or accept any illegal gift or offer without first obtaining authorization from the company's directors.

We punish anyone involved in bribery according to the company's regulations.

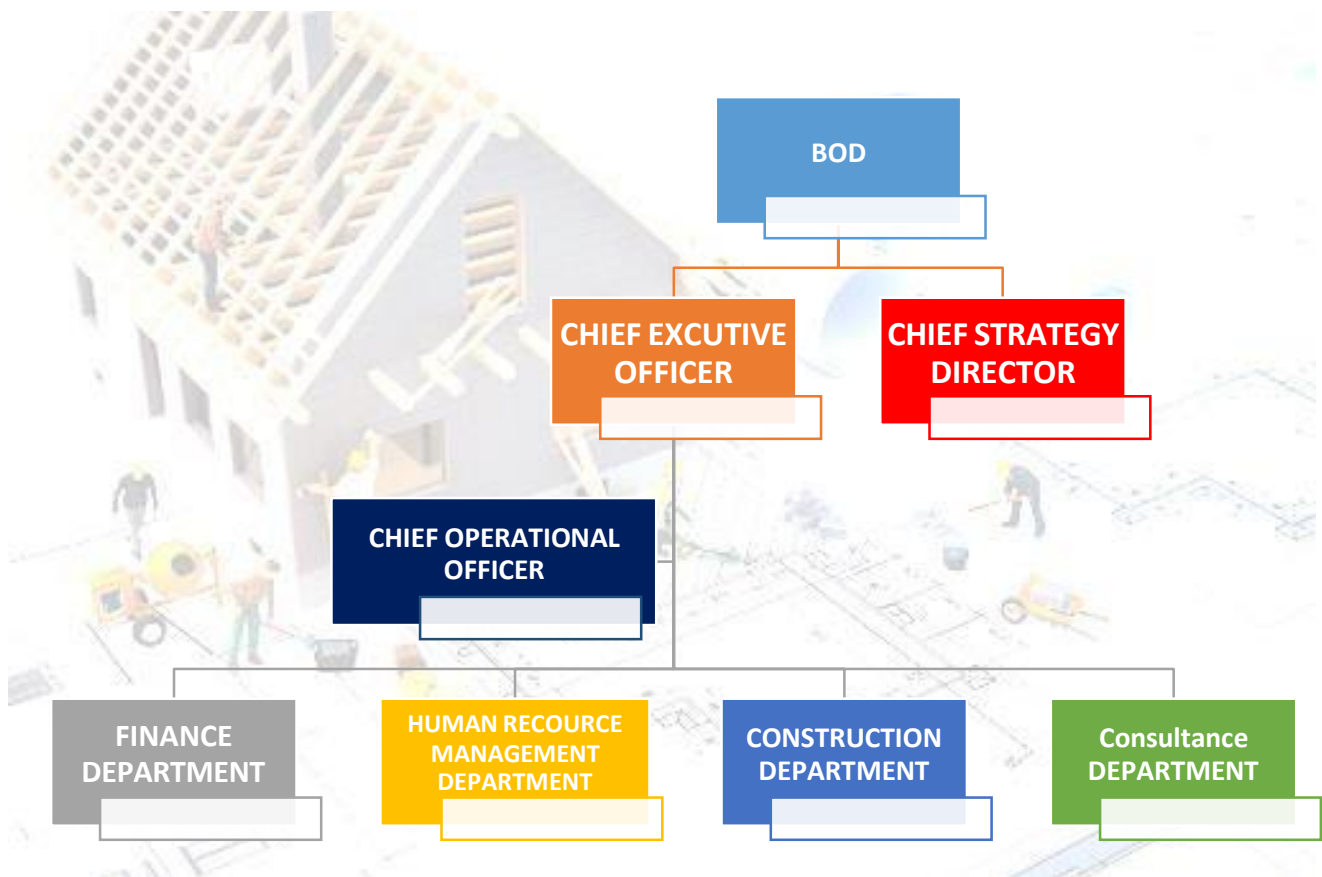

Pricing strategy

Pricing is usually a big factor, and it is always best to proceed with confidence on both sides. We achieve this by providing an accurate and detailed breakdown of the costs. This allows you to view the cost of individual items, allowances, and labor estimates. We apply a modest margin of profit for our standards in the industry. We provide our clients with copies of all receipts and invoices upon each billing. This keeps our clients up to date with budgets and allowances. There is nothing hidden in our costs.

Material cost can vary dramatically in the construction business. It is important to use a company who has a long history of good standing with local suppliers and vendors. Our relationship with these companies assures our clients of the best pricing and prompt service available. This also helps with accurate pricing during the bidding process. We have a great working relationship with these companies.
